ORGANIZATION PROFILE

- ❑ **Company Name:** IndiAir Services
- ❑ **Established:** In 2015
- ❑ **Postal Address:** C-112, Ganesh Meridian Opp Kargil Petrol Pump S.G. Highway, Ahmedabad, 380060
- ❑ **Email:** Intl@indiairservices.com
- ❑ **Website:** www.Indiairservices.com
- ❑ **Contact:** 9913555255/9913455255

Company History

Indi Air Services, founded by Mr.Sanket Dave in 2015, has been active in the incoming Tourism segment, enjoying every year dynamic growth in terms of arriving passengers and revenue.

Capitalizing the growth deriving from the new destinations, as well as the growth of many new source markets, the company`s boost has positioned it to one of the most extended and geographically diversified incoming networks and Destination Management Companies, serving more than 250,000 passengers in a year.

Mission

Efficiency, Flexibility and Quality Service with a Personal Touch, State of the Art Technology, combined with strong purchasing advantages and Value for Money.

We`re committed to offer competitive value for money products and high level services in order to achieve total client satisfaction. We want to meet and exceed all business clients goals and objectives, strive for excellence in quality, integrity, and value in all that we do. We want our partners and ourselves to grow profitably in our respective countries, through thorough market analysis, continuous product development, aggressive yield management and prudent financial risk monitoring.

Existing System

- All Work are done manually.
- In Manual Car Booking System Customer has to go to the Travelling office.
- Ask Inquiry for Travelling then Book car Finally Pay Payment & Collect Receipt.
- Difficult to Maintain the Customer Details of Payment Receipt in Register.
- They Register Car Package in the notebook.
- Add advertisement in Local newspaper or Local Market.
- Use Travelling Facility For the Limited Area or Person.
- You cannot get all the traveller Details at one Place.

Proposed System

- To Create Web Based Application for our Organization.
- To Provide Search Facility for Customer.
- To Generate Different Types of Reports.
- To provide the online Car Booking and Online Payment Facility for Customer.
- To Provide Car Details.
- Customer does not need go to anywhere for Booking of Car.
- Customer can get all the details of travellers at one Place.
- Customer Can Cancel the Booking Before 24 Hours at 0 Cost.
- Customer can give feedback.
- Customer can hire Car for more than 1 day.

Scope of System

- Easily booking of car.
- Online payment is possible.
- User can get reminder of his booking.
- User can search cars.
- User can search travel agencies.
- User can be able to see his past booking.
- User can manage his own profile.

Objectives of System

- User can get the rate of cars of different travel agencies at one platform.
- Opportunities for business of travellers increase.
- User can select the car on the basis of his budget.
- User can get the suggestion to travel.
- User can also be able to get knowledge of hotels at his destination.

Stakeholder of System

- **The following stakeholders for our system are:**
 1. Admin
 2. Users
 3. Transport Providers

Admin

- He is the whole and sole authority of the system who has all the rights regarding to the system.
- He can update the schedule, delete the user, delete the traveller.
- He can create the offers for customer.

Users

- A user is a customer who makes bond with the system and take benefit of the services provided by the system.
- A user is a customer who can book car online.
- A user does payment.
- A user does cancellation of booking.
- A user can give feedback for the system.

Transport providers

- He can provide all the details regarding the vehicles.
- He can update the cars information.
- He can create the deal for customers.

Project Definition

Our Project is to book car online where one can rent a car of their choice. So, our Websites creates a Digitalize platform for the users who can book a car online from anywhere and at any time.

Feasibility Study - I

1. Technical feasibility

- **The technical feasibility study compares the level of technology available in the software development firm and the level of technology required for the development of the product. Here the level of technology consists of the programming language, the hardware resources, other software tools etc.**
 - The facility to produce outputs in a given time.
 - Response time under certain conditions.
 - Facility to communicate data to distant locations.
 - It just requires window operating system and normal browser to use our system.
 - The organization has already purchased required gadgets.

Hence, the proposed system is technically feasible.

Feasibility Study - II

2. Operational feasibility:-

- **Operational feasibility study tests the operational scope of the software to be developed. It is checked that if the system is actually can be useful when implemented.**

Our system is operationally feasible in the following ways:

- i. Since the employees are well educated and knows the importance of computer in day to day life, they have shown the positive response to our system.
- ii. The system does not have specific hardware/software requirements. Any user will be able to use this website on its **comprehensive** desktop.

Feasibility Study - III

3. Economical feasibility

- **The economic feasibility study evaluates the cost of the software development against the ultimate income or benefits gets from the developed system. There must be scopes for profit after the successful Completion of the project.**

The system is economical feasible because:

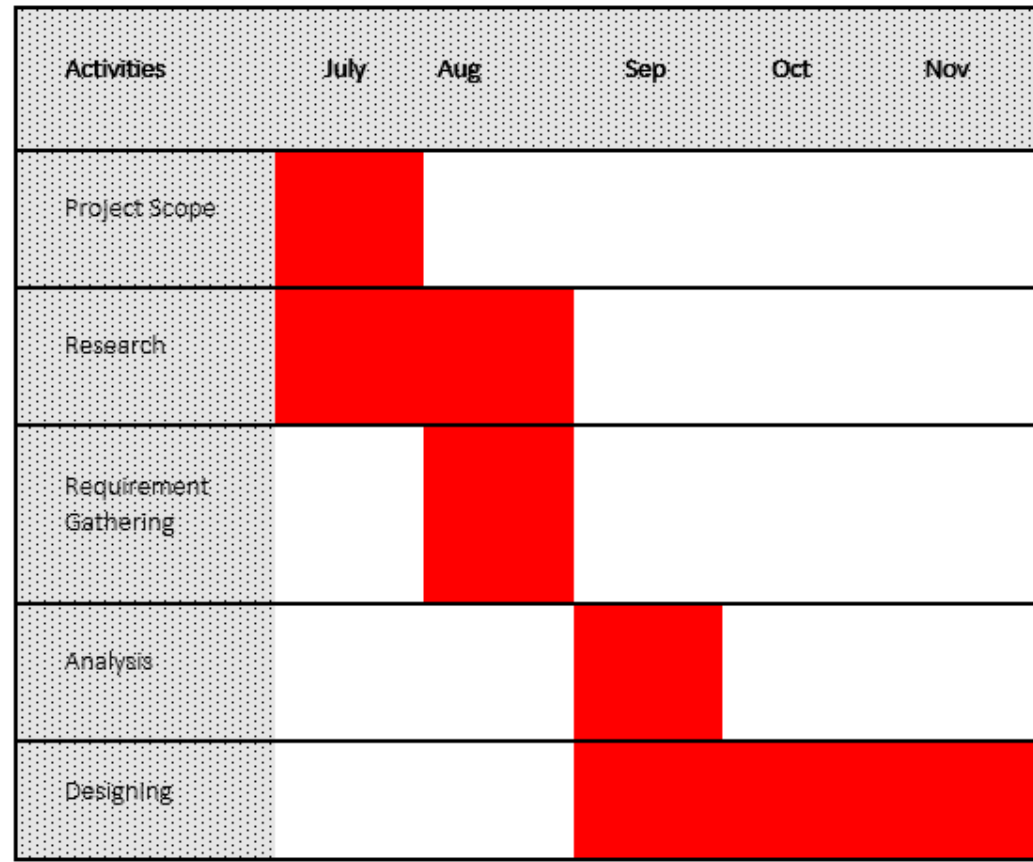

- Our system is not much costly to develop.
- There is no extra economical cost because system is develop with an open source technology.
- It is easy to use and understand therefor there is no need to appoint any operator to use the system.
- Organization is ready to invest in proposed system because it is being developed in latest technology and will be very fast for the users to transfer or share the information using the system.

Hardware and Software Requirement

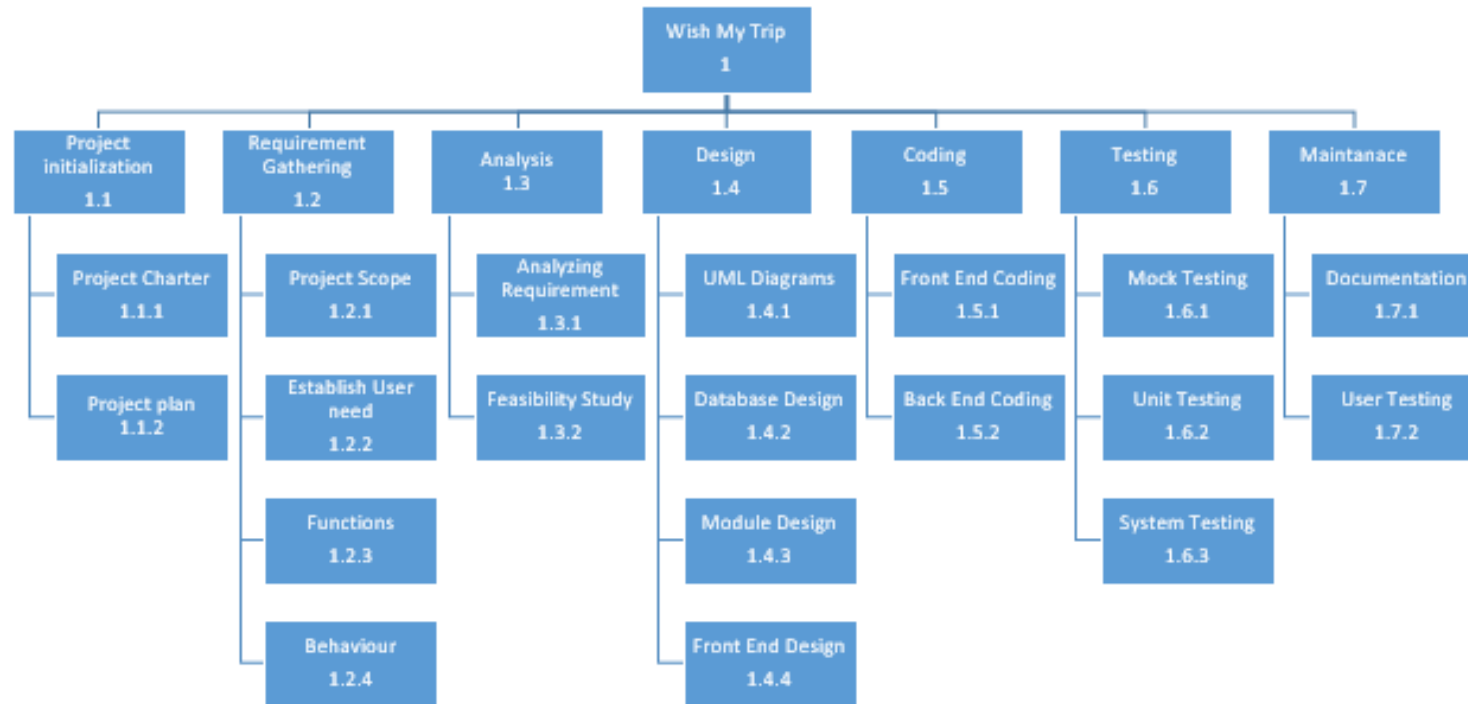

Hardware Requirements	
Processor	Intel P4 and higher and/or equivalent processor system.
Hard disk	40 GB or above.

Car

Field Name	Data Type	Size	Constraint	Description
car_id	Integer		Primary Key	Id of Car
car_name	varchar	20	Not Null	Name of Car
car_colour	varchar	7	Not Null	Colour of car
car_type	Boolean		Not Null	
car_img	varchar	200	Not Null	Image of car
Car_rate	Double		Not Null	Price of Car
car_details	varchar	100	Not Null	Details of car
Car_category	Varchar	10	Not Null	Sedan or Suv
fk_traveller_id	Integer		Foreign Key	Id of traveller

User

Field Name	Data Type	Size	Constraint	Description
user_email_id	varchar	40	Primary Key	User's email id
user_name	varchar	20	Not Null	Displays User's name
user_photo	varchar	200	Not Null	Display User's photo
user_password	varchar	15	Not Null	Password for login
user_address	varchar	50	Not Null	Address of user
User_dob	Date		-	Birthdate of User
User_gender	Boolean		Not Null	0 or 1
User_mobilenno	Varchar	13	Not Null	User's Mobile no

Traveller

Field Name	Data Type	Size	Constraint	Description
traveller_id	Integer		Primary Key	Id of traveller
traveller_name	varchar	20	Not Null	Name of traveller
traveller_password	varchar	15	Not Null	Password of traveller
fk_car_id	Integer		Foreign Key	Id of the car
traveller_email	varchar	40	Not Null	Email Id of Traveller
traveller_add	varchar	50	Not null	Address of traveller
Fk_driver_id	Integer		Not Null	Id of Driver
Fk_city_id	Integer		Not Null	Id of city

Driver

Field Name	Data Type	Size	Constarint	Description
Driver_id	Integer		Primary Key	Id of driver
Driver_name	Varchar	30	Not Null	Name of driver
Driver_license_no	Varchar	25	Not Null	License no of driver
Fk_traveller_id	Integer		Not Null	Id of traveller

Payment

Field Name	Data Type	Size	Constraint	Description
pay_id	Integer		Primary key	Id of payment
card_no	Long Integer		Not Null	No of the card
Amount	Double		Not Null	Amount of Trip
card_name	varchar	15	Not Null	Name of the Card
card_type	varchar	15	Not Null	Credit or Debit Card
fk_user_id	varchar	40	Foreign Key	Id of the user
Date	Date		Not Null	Date of payment
Status	Boolean		Not Null	Paid or Pending
Fk_order_id	Integer		Not Null	Order Id
Fk_traveller_id	Integer		Not Null	Id of traveller

Order

Field Name	Data Type	Size	Constraint	Description
order_id	Integer		Primary Key	No of Order
fk_user_id	varchar	40	Foreign Key	Id of user
Source	varchar	50	Not null	Pick Up Location
Destination	varchar	50	Not Null	Destination Location
Booking-date	Date		Not Null	Date of trip
Checkin_date	Date		Not Null	Date of check in
checkout_date	Date		Not Null	Last date of trip
fk_car_id	Integer		Foreign Key	Car id
Fk_driver_id	Integer		Not Null	Id of driver
fk_traveller_id	Integer		Foreign Key	Traveller Id
booking_Status	Boolean		Not Null	

Hotel

Field Name	Data Type	Size	Constraint	Description
hotel_id	Integer		Primary Key	Id of hotel
hotel_name	varchar	20	Not Null	Name of Hotel
hotel_address	varchar	50	Not Null	Address of hotel
hotel_img	varchar	200	Not Null	Image of hotel
hotel_feedback	varchar	100	-	Feedback of hotel
hotel ratings	Integer		-	Ratings of hotel
Fk_city_id	Integer		Foreign Key	Id of the city

Feedback

Field Name	Data Type	Size	Constraint	Description
feedback_id	Integer		Primary Key	Id of blog
feedback _title	varchar	10	Not Null	Title of Blog
feedback_desc	varchar	500	-	Description of blog
feedback_date	Date			Date of blog
feedback _img	varchar	200	-	Image of blog
fk_user_id	varchar	40	Not Null	User Id

Country

Field Name	Data Type	Size	Constraint	Description
Country_name	Varchar	10	Not Null	Name of Country
Country_id	Integer		Primary Key	Id of City

State

Field Name	Data Type	Size	Constraint	Description
State_name	Varchar	10	Not Null	Name of state
State_id	Integer		Primary Key	Id of State
Fk_country_id	varchar	10	Not Null	Name of country

City

Field Name	Data Type	Size	Constraint	Description
city_id	Integer		Primary Key	Id of City
city_name	varchar	10	Not Null	Name of city
fk_State_id	Varchar	10	Not Null	Name of state

System Navigation

Limitations

- Smart phone and Desktop will be required to use this system.
- Without Internet facilities, the customer can't use the system.
- If the customer doesn't have the basic knowledge about computer, then it will be difficult for them to use this system.
- They can't book the hotel.

Future Scope

- More different types of offers such as Discount coupons will be provided to the customers based on booking records.
- Paytm facility will be added for online payments.

We can add the facility of hotel Booking
